Srinivasulu Reddy G

CEO at Skykrafts Aerospace | Mentor on the sides | Making “A Drone for Everyone”.

Bengaluru, Karnataka, India

Summary

End to end solutions for agriculture, forestry, research and emergencies using Drones, IoTs and Blockchain.

Our Products :

ahaDRONE

KISAN DRONE

RAV (Research Air Vehicle)

SKYWARE

ahaDRONE, a nimble cardboard drone, that is made available as a Do-It-Yourself kit, with features that punch way above it's weight, ahaDRONE addresses drone uses in education and recreation.

KISAN DRONE, a scalable solution that enables spraying as a service to accommodate farm service providers, drone operators and farmers, allowing them to apply a precise amount of liquid where it is necessary and at the right time.

RAV, the adaptable drone with onboard processing and ability to take in multiple payloads such as LIDAR, Hyperspectral and Multispectral camera modules.

SKYWARE, the dependable drone infrastructure, the quintessential building block for an effective drone ecosystem brings accountability to Drones, their operators and pilots, making commercial drone operations safe and secure for all stakeholders.

I am heading the dream team that is making and selling solutions, which in itself is the mission of “A Drone for Everyone”.

Experience

Skykrafts Aerospace.

Founder and CEO

October 2015 - Present

Bengaluru, Hubballi and Hyderabad

SkyKrafts Aerospace is building end to end solutions using Drones, IoTs and Blockchain for applications in :

- 1) Agriculture
- 2) Survey
- 3) Forestry
- 4) Infrastructure
- 5) Emergencies
- 6) Research

Our vision is to unlock the value of drones in commercial activities by making drones that are smart, robust, reliable, fun and productive, in short we make

"A Drone for Everyone"

G S Reddy

CEO

August 2007 - June 2015 (7 years 11 months)

Hubli Area, India

At G S Reddy, our brush with immersive gaming technology, brought us one step closer to a life like experience in graphics, interactivity and game-play. We worked on head tracking systems, head mount displays, anthropomorphic robotic arms, 3D rendering of game entities in augmented reality.

G K Reddy & Company

President

July 2003 - May 2007 (3 years 11 months)

Hubli Area, India

Presided over a 30 year old family construction business soaked in debt; turned it around into a thriving business house and an award winning expert in rural and urban water supply. For an engineer pushed deep into business, planning and discipline which are vital to engineering, were what paid off in the end

Map Works

CEO

February 1994 - April 2003 (9 years 3 months)

At Mapworks we believed in the application of technology to traditional industry, and change the way we work to a great degree. This led us to develop Industrial and Process automation solutions.

Education

B. V. B. College of Engineering & Technology
Bachelor of Engineering, Electronics & Communications
